Introduction – A Deeper Dive

In some cases a much deeper level of evaluation would be beneficial to identify those learning points that can maximise the value of any related future expenditure.

Here are a range of questions that can be adapted and applied to the evaluation process depending upon the level of learning required. These questions are divided into five sections, to cover five different stages of a project.

Within each stage there are two sets of questions:

- One set for the internal client to answer
- One set for the consultant supplier to answer.

All Questions to be evaluated on the following scale: Strongly Disagree/ Disagree/ Slightly Disagree/ Neutral/ Slightly Agree/ Agree/ Strongly Agree / Not Applicable
